

SHERIFF OPATOLA

Virtual Assistant • Administrative Coordinator • Junior Project Manager
Nigeria • LinkedIn: [linkedin.com/in/sheriffOpatola](https://www.linkedin.com/in/sheriffOpatola) • Open to Remote Work

PROFESSIONAL SUMMARY

Detail-oriented and tech-savvy Virtual Assistant and aspiring Project Coordinator with hands-on experience supporting business operations, managing digital workflows, and delivering research-driven insights. Proficient in a wide range of productivity and collaboration tools including Asana, Trello, Zapier, Slack, Notion, and Google Workspace. Background in software and web development adds a unique technical edge to administrative and project coordination roles. Proven ability to learn new tools rapidly, work independently, and contribute meaningfully to organizational goals, even in a voluntary capacity.

WORK EXPERIENCE

Virtual Assistant (Volunteer) | *Tech Startup / Business Organization* 2025 – Present

- Conducted in-depth online research and compiled structured reports to support business decision-making and content strategy.
- Managed website backend operations including content updates, basic troubleshooting, and ensuring site functionality remained consistent.
- Coordinated internal communications and task assignments using Slack, Asana, and Trello, improving team workflow efficiency.
- Automated repetitive administrative tasks using Zapier, reducing manual workload and saving the team several hours per week.
- Maintained organized documentation, schedules, and meeting notes via Notion and Google Workspace (Docs, Sheets, Drive, Calendar).
- Facilitated virtual meetings and team check-ins via Zoom, preparing agendas and distributing follow-up action items.
- Supported project tracking by monitoring task progress, flagging bottlenecks, and updating project boards in real time.
- Assisted in email management, drafting professional correspondence and ensuring timely responses to stakeholders.

Software Developer (Freelance / Side Projects) | *Self-Employed* 2023 – Present

- Designed and developed functional web applications and tools as personal projects, demonstrating initiative and self-directed learning.
- Applied software development skills to automate and optimize administrative and back-office workflows.
- Collaborated on small-team development projects, applying version control, documentation, and agile-style task management.
- Leveraged technical knowledge to troubleshoot and maintain website backends, complementing VA responsibilities with a developer's perspective.

CORE SKILLS & TOOLS

Virtual Assistant & Admin

- Email & calendar management, scheduling, correspondence drafting
- Research, data gathering, and report preparation
- Document management, file organization, and data entry
- Meeting facilitation, agenda preparation, and minute-taking
